## **E**COSYSTEM **D**EVELOPMENT

### **Module 1: Target Demographics with Strategic Tactical Prowess**

You will learn relationship-building strategies to serve key leaders by focusing on the win-win. By developing partnerships with cornerstone agencies, you will contribute economically to the youth population and the region.

As a youth development catalyst, you will have a detailed knowledge of the organization's services, as well as the myriad of benefits to the youths they serve.

*Module Highlights:* Not only will you receive understanding and strategies to begin to position yourself as a cornerstone leader in your area, you will receive the plan to structure or audit an existing program.

### **Module 2 : Building a Self-Sustaining Youth Development Ecosystem**

This section provides you with the training and resources to actually create ecosystems within your community.

One of the greatest ways to empower and inspire youth is for them to see their worth and how they can help others while developing. In this module, you will learn the benefit of self-sustaining youth development programs.

*Module Highlights:* Not only will you receive exclusive information and strategies to build a self-sustaining ecosystem , you will get the resources to deploy your program.

**STRATEGIC PLANS  
AND  
OPERATIONAL TACTICS**

## Module 3 : Developing Relationships with Stakeholders

From starting an advisory board to partnering at local meetings, you will develop relationships with cornerstone agencies and other stakeholders. Solutions can only be executed when the right people are sitting at the table. We will discuss how the right motives, skills, and resources, coupled with passionate catalysts will impact the trajectory of opportunity youths. You will have resources to address the prevention and reduction approach used with opportunity youths or those at risk of becoming opportunity youths. You will be able to deploy strategies to reduce risk factors and elevate or strengthen protective factors.

*Module Highlights:* The resources here helped me connect with key business partners, like top industry leaders, chamber presidents, superintendents and leadership at various organizations. It's been my passion to see more leaders at the table making decisions for our youths. Each module is laced with over 20 years of governance.

## Module 4 : Strategic Advantages: "Right Relationship ROI"

Gain the return on investment (ROI) of the right strategic relationships. From the impact on the economy and its stakeholders to the future legacy of the opportunity youth, this lesson will address how the Adopt a Zip Code concept can use minimal investment with a high yield on the return for generations. It's about systemic solution-based activities.

*Module Highlights:* You will understand and dominate in partnering, by understanding the financial impact for stakeholders.
